Get The Accurate Resale Value Of Your Car!!

It is expected that sales of reconditioned used automobiles would rise in light of the current challenging economic climate. Leasing cars rather than owning them entirely is a prevalent practise in the majority of the world's nations. A lease is a legally binding agreement between a buyer and a seller wherein the buyer is required to pay the seller or financier in set payments over a certain period of time, usually months or years. After the lease term is up, the buyer will have the option of purchasing the vehicle for its residual value, or anticipated resale value. Therefore, the ability for sellers and financiers to accurately anticipate the residual value of automobiles is of economic significance.

WANT TO KNOW THE RESALE VALUE OF YOUR CAR??

forms.html

Please fill the following details of your car

Registration Year	<input type="text" value="1999"/>	Model	<input type="text" value="clio"/>
Registration Month	<input type="text" value="11"/>	Brand Of The Car	<input type="text" value="renault"/>
Power Of Car In PS	<input type="text" value="54"/>	Fuel Type Of The Car	<input type="text" value="petrol"/>
Kilometers The Car As Driven	<input type="text" value="90000"/>	Vehicle Type	<input type="text" value="small car"/>
Gear Box Type	<input type="radio"/> Manual <input checked="" type="radio"/> Automatic <input type="radio"/> Not declared		
	Car Is Damaged <input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> Not declared		
<input type="button" value="Predict"/>			

Predicted Price: \$3591
